

Macro Technology Inc.

Delivering Solutions for the Plastics Extrusion Industry

Macro Technology Inc.

Press release

June 9, 2014

We are very pleased to announce the launch of Macro Technology Inc. (MT) which is a sister company to Macro Engineering Inc.. MT is an independent technology company that focuses on R&D and consulting services to the plastics extrusion industry.

Led by industry veteran, Mirek Planeta (founder of Macro Engineering Inc.), MT has collected a group of extrusion experts with various areas of specialization that amount to more than 150 years of experience.

MT currently focusses on 3 main services:

- 1) *Troubleshooting and Consulting***
- 2) *New Product Development***
- 3) *Extrusion Training***

We have experiences in the following areas:

- ***Blown film***
- ***Cast film***
- ***Double/triple bubble high and low shrink films***
- ***Sheet extrusion***
- ***Foam extrusion***
- ***Extrusion screw designs***
- ***Coating lamination***
- ***Web handling***

We are here to help you:

- Improve your overall product quality at minimal cost
- Design differentiated products so you are always one step ahead of your competitors
- Design the equipment to suit your products so you don't have to change your products to suit the equipment

Please visit www.macrotech.ca for more information.

We welcome the most difficult challenges and we tackle the impossible. We are here working for you!
